

MICROVELLUM DRAFTER/ENGINEER

O'Keefe Inc. is searching for an experienced Drafter / Engineer with Microvellum and AutoCAD experience to join their team. Qualified candidates would have a background in woodworking and cabinetry. Candidates will be expected to produce submittal and cabinet/fixture drawings, revise redline drawings, confirm hardware specifications and requirements and successfully engineer cabinets/fixtures for production using Microvellum.

Job Requirements:

- Microvellum and AutoCad experience and/or training are required
- Experience working with Genesis, Pattern Systems, Cut Rite, Ardis or other industry related software is a plus
- CNC Programming experience is a plus
- Time management and the ability to work in a fast-paced environment are required
- Practical problem solving skills to create detailed shop drawings from architectural drawings while understanding shop construction techniques
- Perform material takeoffs and create requisitions accurately for optimal levels of yield
- Excellent communication skills, strong attention to detail, multi-tasking while working independently is required
- Working closely with Project Managers, Estimators, Production and Sales Staff to understand initial job requirements, manage change orders/adds and provide a clearly defined path of construction

As leaders we take pride in providing unsurpassed service, quality product, and on time deliveries for our clients. Our innovation drives winning performance and our people strive to be the very best at every aspect of our business. You will be surrounded by some of the best and brightest people within the industry. O'Keefe is a fantastic place to support your career!

We offer a competitive compensation and benefit package, including a matching 401(k) plan. If you are interested in being considered for this position please submit a resume and cover letter to:
